

## WANT TO BE A REAL CAPTAIN? GOLD BRAID AND ALL?

Your Board would like to invite interested residents to volunteer to be "Building Captains". This is something we've done in the past, and most Condos have a similar program.

Each building would have a Captain, appointed by the Board for one year. The Captains would work closely with each other and the other residents, answering their questions and taking their ideas to the Board, if they did not wish to do so. The building Captain would know who's in residence, what their needs are, etc. They would occasionally check for out of date automobile stickers, track improperly parked vehicles, report dangerous conditions like loose handrails, and so on.

If willing to volunteer, please speak with any Board member...
